(4). "Exploring Faith Books" – information about the **Books for Children plus Books for Young People** is contained on the two PDF files attached

(5). **DIDDY DISCIPLES: Stories for Strange Times (For ages 0 – 10)**

Diddy Disciples have audio stories, colouring sheets and a host of creative ideas to help explore stories with children. In a time when everything has changed, telling stories together as a family can help children (and adults!) make sense of the world around them. The Bible has some wonderful stories that can speak to us during these strange times. Choose from one of these short interactive times of storytelling and let the audio track lead you in telling the stories together. Remember children love repetition, so don't just tell these stories once! Tell them 'Again! Again!' until they become your family's stories!
